## Full job description

Planetart is looking for a talented, driven, and highly analytical, Logistics Data Analyst to join our Operations and Supply Chain team. The candidate will have strong analytical skills and using data to drive business decisions and reduce cost. The candidate will have knowledge and experience with major Carrier ship options and packaging guidelines. The candidate should have experience with international freight (UK/EU) as well as domestic shipping for international territories.

### Major Responsibilities:

- Identify, develop, manage, and execute analyses to uncover areas of opportunity and present written business recommendations.
- Develop tool to monitor worldwide ship method accuracy from all ship facilities.
- Develop automation for freight cost reporting for business partners.
- Design exception based reporting highlighting and analyzing outliers.
- Weekly discussions reporting on pricing gaps, spot quotes, and areas of improvement.
- Discover the most cost-effective shipping modes.
- Collaborate with IT professionals to implement effective processes and systems.

### Requirements

#### Key Characteristics:

- Proven expertise managing, evaluating, analyzing quickly, and creating meaningful business reporting and analytics  
Proven ability to develop strategic relationships with your business partners – you influence the decisions. You can root cause issues quickly and uncover core issues using data, then assist, consult with, and teach the business how decisions affect costs in their sites and create new mechanisms as they are needed

#### Basic Qualifications:

- BA/BS degree in Finance, Accounting, Supply Chain Management, Engineering or related
- 5+ years of experience with Excel advanced tools (pivots, lookups, etc.)
- Advanced SQL knowledge to pull data into BI tools such as Tableau, or Power Queries within Excel
- Knowledge of freight carriers and audit processes
- Experience in data mining, analysis, and reporting

- Working knowledge of Microsoft Office, relational databases, and ERP systems (e.g., JDE)
- Familiarity with supply chain processes (e.g., Inventory planning, warehouse management)
- Strong analytical mind with problem-solving aptitude
- Strong attention to detail
- Great interpersonal skills
- Exceptional verbal and written communication skills
- Covid-19 vaccine is required - reasonable accommodations will be considered

**Working Conditions:**

- Work is performed in an office environment with low to moderate noise levels.
- Occasional lifting of up to 20 pounds.
- Position requires regular, continuous use of computer.
- Position requires regular sitting and standing.
- Position requires regular interaction with team members through the following methods: in-person, phone, WebEx, Slack, or email.
- May require occasional travel.
- This is a hybrid position; interns are expected to be in the office three days per week (Monday, Tuesday, and Thursday) with the option of working remotely two days (Wednesday and Friday).

**Benefits**

The compensation range for this position is \$80,000 - \$100,000 annual salary.

PlanetArt offers a comprehensive benefits package including:

- Health, Dental and Vision Insurance
- Life Insurance
- 401(k) with matching
- Excellent Work/Life Balance – Paid Time Off, Sick Days, Paid Holidays, and Floating Holidays
- Employee Product Discounts

If you require alternative methods of application or screening, you must approach the employer directly to request this as Indeed is not responsible for the employer's application process.
